Robots

Se acelera la automatización de tareas:

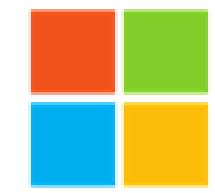

- 1) Asistentes virtuales automatizan **conversaciones**
- 2) Robots automatizan tareas mecánicos
- 3) RPA automatiza tareas de oficina
- 4) Smartspeakers cambia la forma de interactuar con la tecnología
- 5) Y los robots sociales? Que automatizan?

ROBOTS SOCIALES

Nuevo revolución

AI Robotics as the next big thing

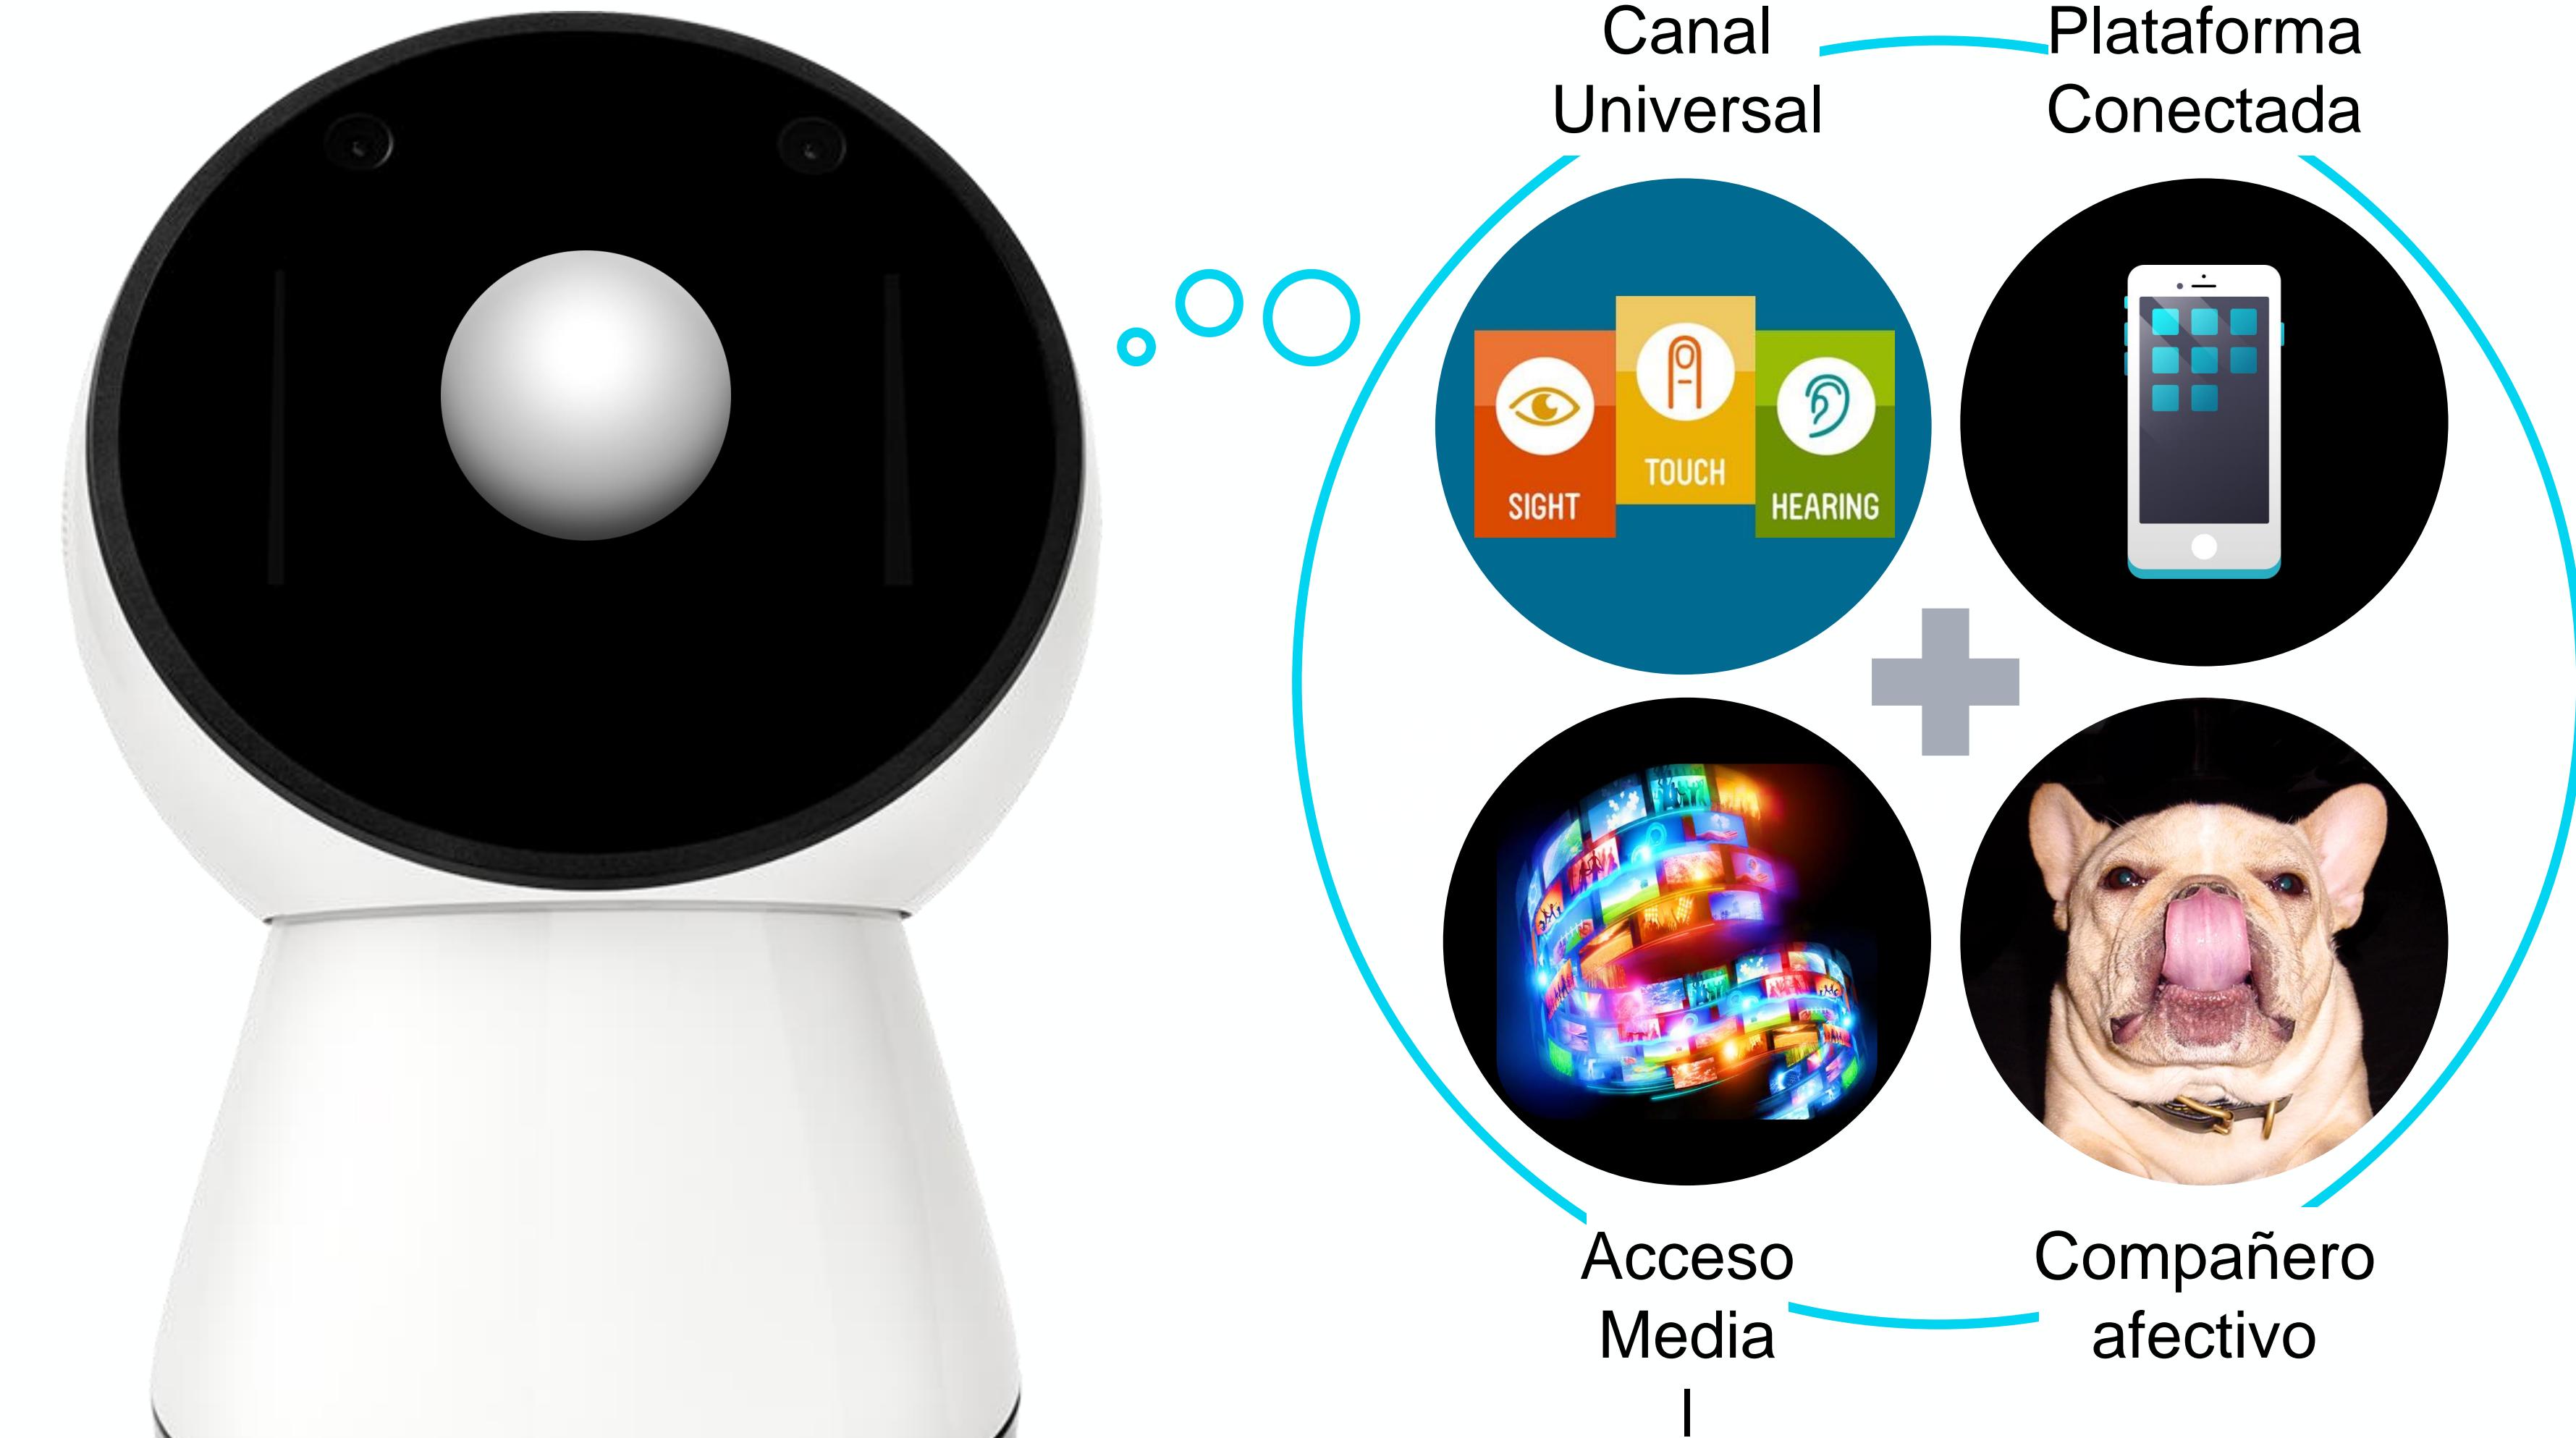

2007

2017

Robot social - características

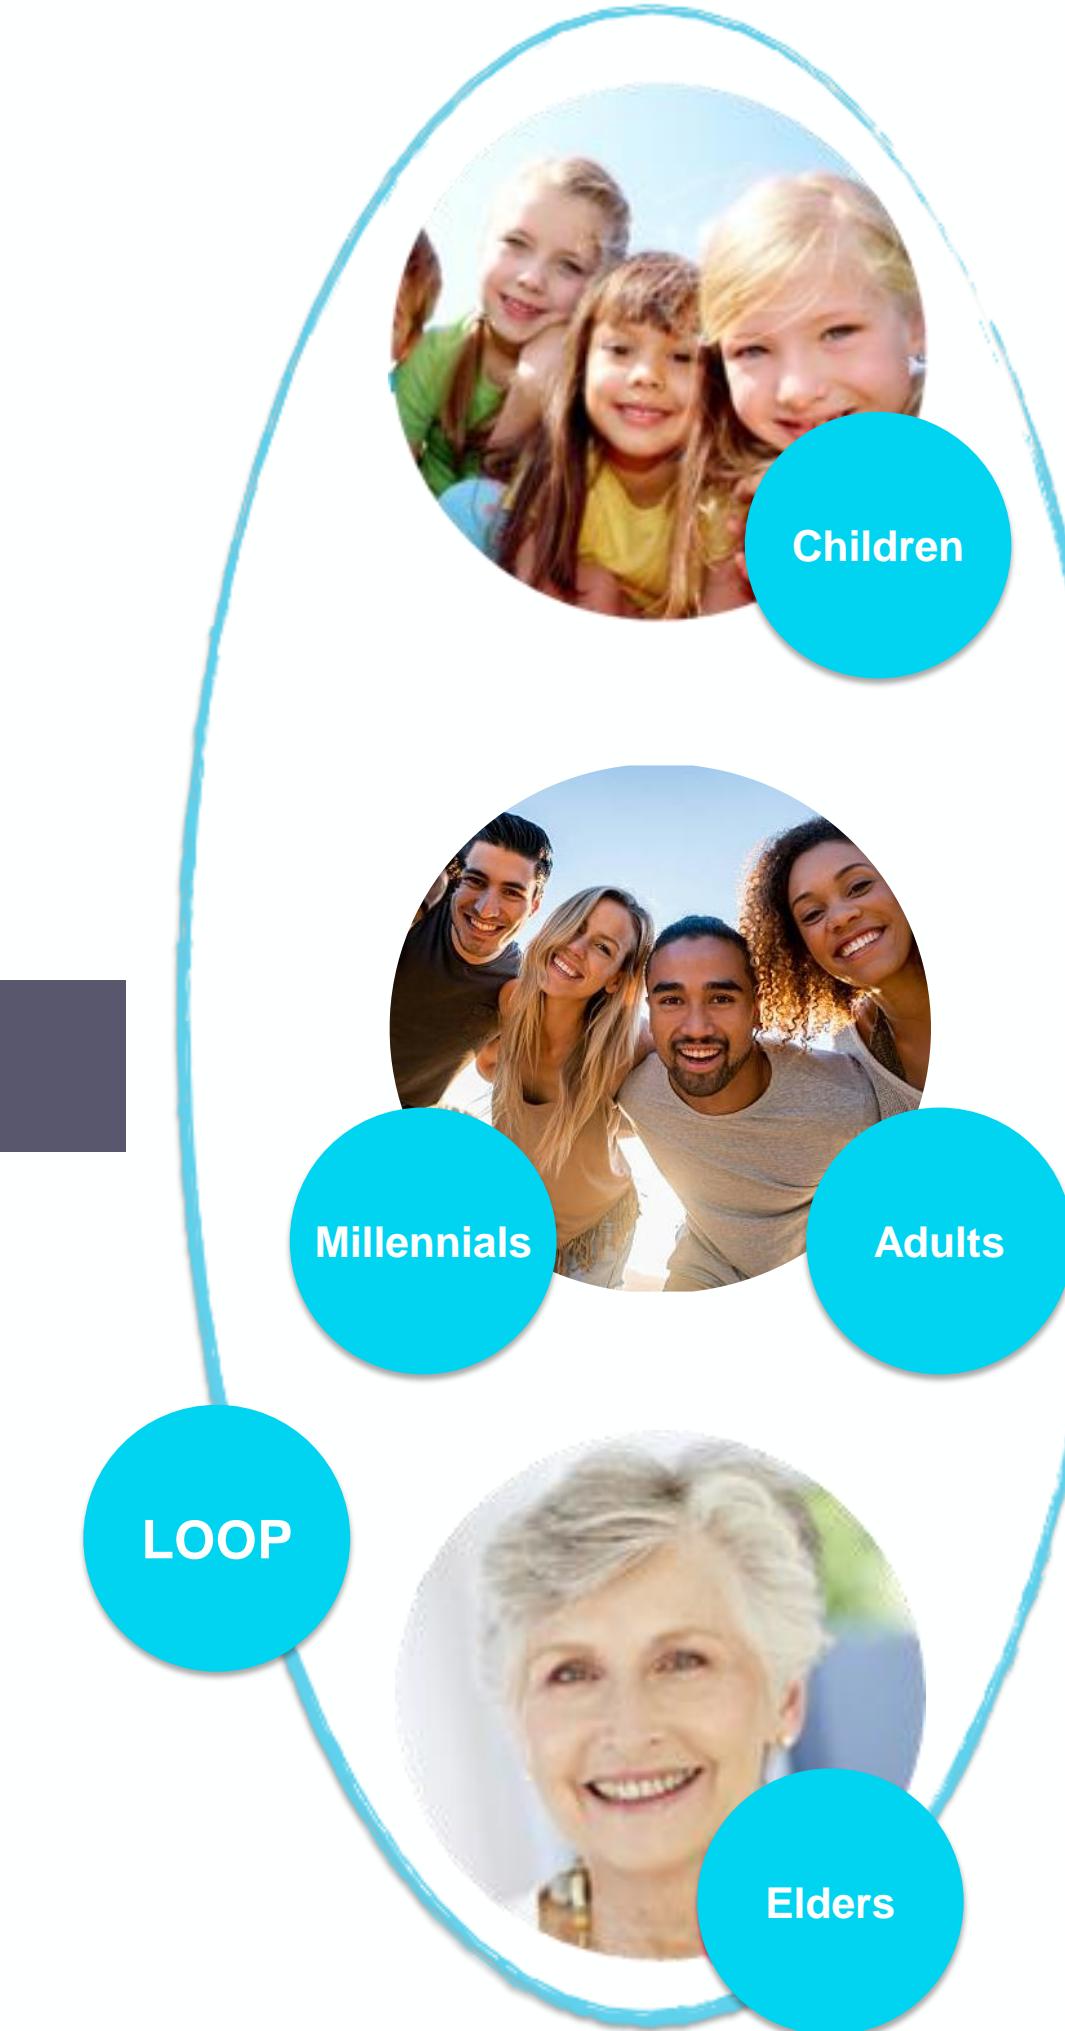

Robot social - características

Un robot social es alguien (some-ONE), no algo (some-THING)

Some-THING

- ‘On’ and ‘Off’ Duty
- ‘Flat’ and ‘Cold’
- ‘Isolating’
- ‘I need to learn it’
- A Computer....

Some-ONE

- ‘Always there, ready to help!’
- ‘Engaging, Warm & Alive’
- ‘Socially & Digitally Inclusive’
- ‘Learns/Knows Me’
- An Attentive Companion, ‘Fits in like Family’

1. PRESENCIA

- ✓ Oido
- ✓ Vistal
- ✓ Tacto
- ✓ Movimiento

4. PROPOSITO

- ✓ Compañero
- ✓ Generador de confianza
- ✓ Alguien vs algo
- ✓ Empatía

2. PROACTIVIDAD

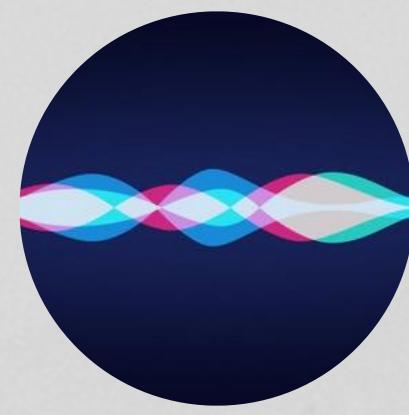

- ✓ Memoria
- ✓ Detección de emociones
- ✓ Contacto visual

3. PERSONALIDAD

- ✓ Movimiento
- ✓ Personaje
- ✓ Interfaz social
- ✓ Comunicación Natural

¿Te gusta la música?

Siri

“I mostly listen to the music of the spheres.”

Google Assistant

“I can say with total honesty, pretty much all of it. But some small part of me is always listening to Funky Town”

Alexa

“I don’t have an opinion on that”

(Video) Matt Berlin: Hello, Leo.

in a connected world

Casos de uso

A photograph of two young children, a boy and a girl, sitting at a wooden dining table. They are both wearing blue shirts and are looking down at their light blue bowls of cereal. The boy is on the left, and the girl is on the right. In the background, through a window, a white robotic vacuum cleaner is visible on a carpeted floor. On the table in front of the children, there is a partially assembled grey puzzle. To the right of the children, a white and black robot vacuum cleaner is standing upright. The scene is set in a bright, airy room with a basket of yellow flowers on a shelf in the background.
